## ANGUS RANCH

25th Annual Sale  
**FRI., MARCH 24, 2023**  
**4:00 PM • At the Ranch Freeman, SD**

*Dear Cattlemen and Cattlewomen,*

With great anticipation, it is our pleasure to welcome you to our family's 25th Angus Bull Sale.

We are a 100% family owned and operated ranch and value each and every one of our longtime friends and customers we have made through the years. We would first like to say, thank you for your interest in our genetics and feel privileged to have the opportunity to be your trusted seed stock supplier. It is with your interest and support of our program that motivates us to continue advancing our cowherd, the bulls, their environment, and genetics.

The drought of 2022 provided us once again with valuable information to be used hopefully at a much later date. The pastures here at the home place were hit the hardest and without pasture supplementation, the bulls exceeded our expectations. However due to the circumstances some of the bulls weaning weights were lighter. Once the bulls were weaned their genetic potential was achieved as they performed extremely well and had very good feed efficiency.

Producing quality beef as efficiently as possible has been and will continue to be an important focus of any progressive cattle operator. That is exactly what our bulls are bred to do. The fleshing ability and efficiency in this offering will add value to your operation.

Within our operation, we specifically breed our cows to produce easy calving, rapid growing progeny that also exhibits outstanding maternal traits. Docility and structural soundness are of utmost importance as well as phenotype of each offspring produced. In addition to that we believe that each animal needs to have the ability to perform in the feedlot and on the rail.

In this sale, we are offering 51 yearling bulls, and 5 fall bulls that have been performance tested and evaluated for breeding soundness. We have recorded data on these bulls in all areas including calving, weaning, yearling, carcass, ultrasound, hip height, pelvic and scrotal measurements. In the development of these bulls, they received their mother's milk and green grass until weaning time. After weaning, they were started on a high roughage, low Mcal diet. Our goal has always been to develop bulls that express muscle development and skeletal growth and yet be sound and functional for their first breeding season and beyond.

Overall, we feel we have a powerful and complete set of bulls to offer you. As you browse the catalog, if you have any questions about the offering, feel free to call us. Also, the bulls are available for viewing anytime.

We invite you to join us on Friday, March 24th at 4:00 p.m. The sale will be broadcast live online through DVAAuction. Immediately following the sale, stay for the post sale social and Angus supper. Thank you for viewing Roth Angus and we look forward to seeing you sale day!

*Thanks & God Bless,*  
*The Roth's*

## View the Auction Live! Bid Online... you're ringside right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at [www.DVAuction.com](http://www.DVAuction.com) under the "Register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction — a DV representative will notify you once you have been approved.
3. Tune in for the sale to make your purchases!

**High Speed internet** is required for successful bidding—be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.  
**Proxy-bidding** — if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

For General Questions Please contact Our Office:
